

## Action Storage Provides Hockey Women's Champions Trophy with Free eXtreme® Storage Lockers

For the first time England will be hosting the prestigious international Samsung FIH Champions Trophy Women at Nottingham's Highfields Sports Club 10<sup>th</sup>-18<sup>th</sup> July. England Hockey will be aiming for a top four finish, and in support storage equipment specialist Action Storage will be supplying eXtreme® lockers free of charge as one of the event's proud partners.

The eXtreme® lockers are to be used in the Media Centre for securely storing cameras and other equipment belonging to journalists at the tournament. Made from hardwearing polyethylene plastic, the eXtreme® plastic locker is exceptionally hardwearing and more secure than conventional metal lockers. Its hinges can withstand 3200N of pressure without breaking (which is 7 times FIRA industry standard) and strong enough to resist break in attempts with a claw hammer. This makes the eXtreme® locker the ideal choice for keeping valuable equipment, personal possessions and sports equipment safe at the tournament.

Being made from polyethylene plastic also means that the eXtreme lockers are waterproof and can be stacked outdoors or placed next to a swimming pool or in a wet area without fear of rusting. The eXtreme® Locker is a popular choice as a school locker for saving space in corridors and classrooms. The locker is also exceptionally hygienic, making it ideal for changing room or wash down areas. It can be spray cleaned with a high pressure hose and chemical disinfectant before being left to dry, with drainage holes to allow water to seep through.

Along with the eXtreme® plastic locker, Action Storage supplies a wide range of innovative storage equipment used in 100s of schools, sports club and leisure centres across the UK and mainland Europe. This includes innovative Supershelf™ shelving, for maximising storage space in equipment rooms, staff lockers and hygienic plastic changing room benches.

If you're hosting an event, Action Storage will be happy to discuss the possibility of providing sponsorship and can be contacted on 0800 088 4578 (UK Only) or +44 (0) 1908 525700.

### About Action Storage

For over 23 years Action Storage has supplied shelving, racking and other storage equipment using the latest materials and innovative designs. Its clients include supermarkets, warehouses, government offices, schools and anyone else requiring high quality storage systems throughout the UK and mainland Europe.

Action Storage prides itself on its high service levels, and provides a free, unique advice line for discussing your requirements and assessing the perfect storage solution.
